OBJECTIVE

Creative and inspired Front-End Software Developer skilled in leadership and problem-solving. Motivated to create a supreme user experience. I am seeking a Front-End Engineer Internship. I will finish my sophomore year in May as a Computer Science student. I have maintained a 3.7 GPA in all courses while maintaining a 4.0 GPA in core programming classes.

EDUCATION

North Dakota State University
Fargo, ND
Computer Science
GPA: 3.7
Deans list: Fall 2020

EXPERIENCE

May 2021-August 2021

Freezer Material Handler • Line attendant • Schwan's

December 2018 – January 2021

Milker • Farm help • Remmiger Dairy Farm

July 2021-Present

Studying Front-End Development

I took an initiative and started teaching myself front-end development. I also purchased front-end development courses to further my education. Important skills I have learned include:

- Engineered scalable, responsive, multi-platform, and SEO-friendly websites for multiple clients using HTML5, CSS3 + BEM, JavaScript ES6+, and React best practices.
- Connected to backend API's through CRUD HTTP requests

KEY SKILLS

Creativity
Problem Solving
Critical Thinking
Self-management
Teamwork

Technology Stack/Skills

HTML

CSS

JavaScript

React

Junit Testing

Microsoft 365

NetBeans

Visual Studio Code
